

Lunch Today's choice

Main

Alternate

Laminated all pieces to preserve for many, many years. School lunch seems to stay the same!

Create this visual lunch choice board by cutting out the green/purple squares and taping them over the blank squares on the main entrée board. This creates a pocket for students to put their name sticks, clips or whatever system you use in.

I taped the board on our classroom door!

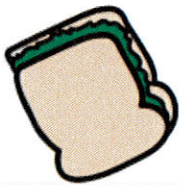

Many entrée photos came from Lincoln Public Schools in Lincoln, NE. <http://www.lps.org/post/detail.cfm?id=391>

I will post additional entrée pics as new menus come out.

Thanks, Lisa Ann B. Johnson
