What: Club Connections has 3 goals for students who attend. They will learn, build and maintain the critical skills for independent living, job skills and building/maintaining relationships. They will do this in 3 ways:

1. Students will learn to identify their hopes and dreams, develop a roadmap and action plan to achieve the goals that they set for themselves.
2. Students will identify and develop the social skills that are needed to begin and maintain relationships with family, friends, and co-workers by learning perspective taking, problem solving, conflict resolution and self-regulation.
3. Students will build the skills to work collaboratively, **become active members of their communities** and begin to develop a lifelong circle of support.
