Savanna Flakes, EdS - Friday, Jan. 24th

Everything is "Possible" with Inclusion! Savanna provides a road map on why inclusive practitioners are really superheroes in disguise. Inclusive teachers use evidence-based strategies, collaborate with intentionality to increase access to the curriculum, and differentiate instruction to increase social and academic achievement for ALL students.

Dr. Jen Newton - Saturday, Jan. 25th

Inclusion: How Committed Are We? This keynote session will challenge us to consider the ways in which we may be upholding harmful systems while also motivating us to disrupt ableism to build something truly inclusive. We will put our beliefs about rightful presence into practice, armed with the knowledge and language we can use to influence the people and systems we interact with.
