

Young Adult Social Groups

Club 21 will pilot four adult (age 18-30) social groups each with a different shared interest as its theme:

1. Film and Theater
2. Sports
3. Outdoor Activities
4. The Arts and Music

Each group will have about 6 adults with Down syndrome and two neurotypical peer facilitators with the goals of:

- developing social/friendship skills in real-world environments
- learning the steps to plan social events
- initiating and planning their own social activities outside the four events organized as part of this program.
- expanding interests and being introduced to a variety of possible interests/passions

Each group will meet four times from February-September (roughly every other month). Each event will have an activity and a portion where the group will eat and have a conversation. Families must provide transportation to and from the event for their young adult.

Tentative dates for each social group can be found below. **Each young adult can only be in one social group.** These dates are subject to change based on availability of events planned in each social group:

COST: \$150

Families will be expected to pay fees associated with activities including entry fees and meals.
